ABOUT THE AUTHOR 276

Bill Gates, Steve Jobs, Jeff Bezos, Mark Zuckerberg, Oprah, Jim Carrey, and more. Did these icons use Savanting to achieve their success? Deep analyses by this executive career maximizer are persuasive.

Savanting's unprecedented protocol exploits how savants *outperform their potential* – how they achieve incredible feats of genius from deficient brains theoretically incapable of them.

Savanting empowers creativity from noncreatives; brilliant breakthroughs from the nonbrilliant; vision from nonvisionaries; and extraordinary execution from the execution-challenged. It renders current methods for cultivating creativity obsolete.

Learn how this savant-inspired protocol actualizes the most sought-after human goals – extreme self-knowledge; self-actualization; self-transcendence; sustained self-sufficient self-love and happiness; wholeness; expanded and even cosmic consciousness; and one's true biology-driven purpose and potential.
